List of Restaurant Winners Unveils the Spots Where Beautiful Vistas Enhance Dining Experiences

SAN FRANCISCO, Aug 30, 2010 (GlobeNewswire via COMTEX News Network) -- OpenTable, Inc. (Nasdaq:OPEN) (www.opentable.com), a leading provider of free, real-time online restaurant reservations for diners and reservation and guest management solutions for restaurants, today announced the winners of its 2010 Diners' Choice Awards for restaurants with the Most Scenic Views. For diners who feel that a beautiful backdrop is what turns a meal out into a magical experience--this list provides 50 restaurant recommendations where seeing outstanding sights comes at no extra charge. The list of winners is derived from more than 7 million reviews submitted by OpenTable diners for more than 12,000 restaurants in all 50 states and the District of Columbia.

"Special occasions have a way of feeling even more exceptional when a view has the ability to take your breath away," said Caroline Potter, OpenTable's Chief Dining Officer. "The real-estate adage about 'location, location, location' is alive and well when it comes to restaurant dining, too--and can be a defining factor when diners are making decisions about where to eat out."

Based on feedback collected from OpenTable diners between August 2009 and July 2010, the following 50 restaurants, listed in alphabetical order, received the highest scores from OpenTable diners, indicating that they were considered among the best restaurants for scenic dining.
